The Sacrament of Confirmation will be administered by Bishop Pinkham, of Calgary, at St. Albans church, Calgary, at the 11 a.m. service on Sunday next.

Council Holds Tame Meeting

The regular meeting of the Blaimore town council on Monday night had a rather tame significance. There were present the mayor and Councilors Sinclair, Dutil and Beebe. Following the approval of the minutes of the previous meeting, the following communications were received:

The Canadian Municipal News, the publication of a municipal gazetteer, and asking that Blaimore be represented. Filed.

Campbell & Gills, enclosing account for drafting certain legal documents.

L. H. Putnam, informing the council that The Town had won against the action of J. K. Irwin.

Mayor Oumette, of Coleman, re the action of the provincial mayors on their recent visit to Edmonton.

A. Moroney and R. C. Green, tenders for water connections. Referred to waterworks committee.

A. McLeod and Ella Board, offering site for nuisance ground.

C. DiCastro, landmaster, re the band proposition. Filed.

The Keystone Cement Co., accepting terms quoted for nuisance ground site.

W. A. Beebe made a written offer to the town of a site on Victoria Street east, in exchange for the town Malemole site, as a site for the hall and municipal building. Given cost reception.

The following letter from C. DiCastro was read and placed on a file near the refrigerator.

Blaimore, Alta., April 26th, 1914.
To The Town Mayor Blaimore, Alta.

Dear Sir: I wish to inform you that Mike (Rose) and I are as the devil and crew, but Mr. Rose and W. Beebe are brothers, so re the Band grant proposition it never will be settled until this matter will be laid by Beebe who is the power of Rose. By the town Clerk I was informed yesterday morning that you and councilman delegated W. Beebe to attend to it, so I went and saw Beebe and the only answer I had from him was that, (according to his plan), the town council must hear SOME band and should hear SOME music. By all these were at the council meeting last Monday night I felt informed that you and councilmen showing himself to be in favor to the application that the band made. I want you and Councilors to decide about it and the band and I will be considering satisfactory any kind of grant that you night will give for supply our air concerts every Sunday 8:30 p.m. during summer. Hoping will joyfully take the matter up.

Yours truly
C. DICASTRO,
Blaimore Bandmaster.

Councillor Beebe moved that The Town purchase the site offered by A. McLeod at a price of \$300, the land being the west corner of the N. E. Quarter Section 26, Township 7, Range 4, West of the Fifth Meridian, two acres running east from the corner post and three acres south, thence two acres west to the boundary line, making six acres in a block, the purchase to be subject to The Town being given a clear legal right-of-way to the property. No second.

Sinclair-Dutil—That the Secretary be instructed to have a lease prepared between The Town and the Keystone Cement Co. for a nuisance ground, the lease to run from year to year on thirty-day notice, rental to be amount of current taxes per annum. Carried.

Several accounts were read and passed.

R. Mack, of Kingston, Ontario, secretary of the Oddfellows' Relief Association, is visiting the Oddfellows' lodge in northern Alberta.

Execution of Frank Haynes

Sidway, N. S. May 12.—Frank Haynes was hanged for the crime of murder at 41 Friday afternoon. Mr. Justice Drysdale refused grants to stay in the case of Haynes. As a result of the confession made by Haynes implicating two others, the Department of Justice, at Ottawa, was convinced of its duty to delay a way of execution. The department referred the matter to Mr. Justice Drysdale, the trial judge, who advised that the application had not been granted.

Chinese Lodge Draws Line at Police Chief

Certain celebrities in Calgary are of the opinion that no one, not even the chief of police, should enter the R. Masonic lodge without "first having" any property and duly initiated and when having first given the password, counterpane and inlayed knock. However, Chief Cuddy, having ridden the coat and having been admitted to the Royal Arch degree under the Scottish rite, held an opinion that he should not be subjected to these conditions. This being the case, he is made the defendant in an action that will be heard this week before his lordship, Mr. Justice Beck, whereby Frank Yee and other Chinamen seek \$1,000 for unjustly entry. The chief claims that when the entry was made there was one—and only one Chin—in view. This was the junior and there was a week of doubt that had hidden in the northeast corner of the room and for which he was astoundingly searching, but there was no trace of any gambling, game and this was that for which the police were looking.

Local and General

Mrs. Green, who had spent the week at the Rhinades taught, Lundbeck, returned to town on Thursday.

The Hall and Menzies Vaudeville Co. appear at the Hillier theatre on Saturday night, and at the Blaimore opera house on Monday next. This is a company of accomplished English comedians who are touring the world and meeting with huge success everywhere.

In High River last week a Chinaman was found one dollar and cents for riding a bicycle on the sidewalk. Bicycles are almost as common on the sidewalks of Blaimore as people on foot, and no steps have been taken by the chairman of the police committee to put a stop to it.

The Blaimore tennis club will give a ball in the opera house on Friday night next, for which a large number of invitations have been issued. The opera house is being specially decorated for the occasion, and the floor will be in first class order. The Bellevue orchestra will furnish the music and a right good time is expected.

The new Anglican church at Hillcrest will be opened and dedicated on Sunday evening next, at 7:30, by Bishop Pinkham, of Calgary, assisted by Rev. D. Watkins Jones, of Coleman. The church has just been completed and is admirably situated. At the opening service, Mr. Samuel Charlton will be openly admitted as lay reader.

The local opera house, which has just been taken over by Mr. J. A. Oshorne, is undergoing a complete interior renovation, and when completed will compare favorably with any amusement house in Southern Alberta. We understand that it is the intention of the present management to install a system of portable sectional floors for roller skating purposes, so as to preserve the main floor for dancing.

The provincial government have built a moving picture theatre in the old parliament building at Edmonton. After May 1st all the

It is stated that the labor men of Alberta will shortly take steps to have all Orientals barred from this province. They will ask the Alberta Government to follow the action of British Columbia in putting up the bars to all classes of Chinese, Japanese and Hindu immigration into Alberta. If there is no legislation covering the matter, it is affirmed the labor men will ask that new laws be enacted.

STRENUOUS WORK

SOON TELLS ON YOU

Business men and breadwinners the

Victims of Nervous Exhaustion

When work is added overwork

soon tell on the victims of

overwork—nervous

exhaustion. It is the

doctor who has no

reserve strength in his system to

over the strain, overwork, and

strength he has. If you feel that

you are overworked and need

rest, you should sleep, and wake

up tired and aching, your nerves are

of order. Other men are

inability to take proper interest in

your work, your appetite is

poor, your back aches, and you are

depressed in spirit. One of more of

these signs mean that you should

take prompt steps to stop mischief by

fortifying the nerves with the food

they thrive on, namely, rich red

blood made by Dr. Williams' Pink

Pills. These pills have cured thou-

sands of nervous prostration, gen-

eral paralysis, neuritis, and other

disorders. Here is an example: "I

was a. McDonald, Springfield, N.S.

and I had been overworked for

years. I think, of hard work, I was

completely run down and found it

impossible to do any work. I slept

poorly, and what sleep I did get did

not rest me. I was unable to eat

and my appetite was poor and feeble.

My nerves were all run down and

from a doctor, for some time, but it

did not seem to help me, and having

heard a great deal about Dr. Williams' Pink

Pills I decided to try them. I

gladly took a pill and was wonder-

fully pleased. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

eat and sleep. I was able to get on

with my work, and I was able to

A Hindu Immi- gration Test

If there is to be a test of whether
Hindus can land in Canada in defiance
of governmental regulations under the
Immigration Act, it may as well be made
now as later. The principle of keeping
British Columbia a "white man's" prov-
ince must not be upheld, and the government
which refuses to let legal technicians
interfere with stern adhesion to the
principle will undoubtedly act in accordance
with the wishes of the Canadian
people. The order from the department
of the interior to immigration officers at
Victoria and Vancouver that the 800
Hindus sailing from Shanghai to Van-
couver must not be allowed to land in
conformity with the order-in-council of
March last prohibiting the entry of anti-
social or laborers into British Columbia
through any of the ports. Chief Justice
Hunter's decision against the immigration
regulation, requiring a continuous
passage of immigrants entering British
Columbia does not effect orders barring
all immigrants, anti-social or laborers
from entry into British Columbia. It
there should prove to be a loophole in the
law to allow a free influx of Asiatics,
there would be immediate demand for
an act of parliament to deal with the
legal "coch and four." The Hindu
immigration question differs from that of
Japanese or Chinese immigrants be-
cause the Hindus are British subjects,
claiming equality with other British sub-
jects in other parts of the Empire, and
entrance through on equal terms. The
Immigration problems involved make it very
necessary that restriction of expansion
applied by Canada shall be derived
managed and that the general order
barring all anti-social and laborers should
prove effective under present circum-
stances.—Toronto Mail and Empire.

New Governor General
Prince Alexander of Teck, the
third son of the late Duke of Teck,
is to succeed the Duke of Connaught
as the new governor-general of
Canada. Official announce-
ment to this effect was made on
May 7th.
Prince Alexander of Teck is forty
years old. He was married in 1904
to Her Royal Highness Princess
Alexandra of Albany, and has one son
and one daughter. He is at present
a major in the second Life
Guards, is a good soldier, and has
seen active service in the Matabele
trouble, and also in South Africa
for two years.

Meeting of Liquor
License Commissioners
A meeting of the board of liquor com-
missioners was held at the Sanatorium
today, to consider applications for
renewal of licenses. As a result the
following licenses were recommended:
Alexandra Hotel, Pincher Creek.
Rocky Mountain Sanatorium, Frank.
Grand Union Hotel, Coleman.
King Edward Hotel, Pincher Creek.
Union Hotel, Frank.
Windsor Hotel, Lethbridge.
Bellevue Hotel, Lethbridge.
Pembroke Hotel, Pincher Creek.
Union Hotel, Lethbridge.
Liquor Hotel, Beaver Hills.
The Frank Wine & Spirit Co., whole-
sale.
Thos. Brinkford Beeson, Bellevue.
The application of the Murphy & Fryer
Liquor Co., whole-sale, Blairmore, ad-
justed to place and date to be set by
the department.
The license of the Frank Hotel and the
Coleman Liquor Co. were recom-
mended to be suspended.
The license would be granted to the
Frank Hotel at Maple Leaf, subject to
change of management satisfactory to
the license department.
The license of the Frank Hotel would be
cancelled on the grounds that it was
not required for public consumption.
Pincher Creek wholesale license was
suspended tomorrow.

Frank played Homer on the
local grounds on Saturday evening
last before a good crowd of rovers.
Homer won the toss and elected
to bat first. The game was a
favorable win. The game was
fast for the first twenty minutes,
but neither team could boast of
any excellent form. Evidently
Frank had the stronger battery.
After thirty minutes play, Frank
scored, and was leading at the in-
terval by 1 to 0. In the second
half Frank scored three and Ho-

son scored two. The game was
very close, but Frank's batsmen
were more consistent. Frank's
pitcher was very good, and
Homer's pitcher was not so good.
The game was very interesting,
and the crowd was very large.
Frank's victory was a well-
deserved one, and the crowd
was very satisfied with the result.

Mr. and Mrs. J. B. Reuter re-
turned to Lethbridge on Monday
from a trip through The Pass.
They spent several days with Mr.
and Mrs. Scott, Pigeon Ranch,
Lethbridge.

Frank Happenings

Who said Frank was dead?

Don't forget the big smasher on
Saturday night.

Mr. and Mrs. R. North were
Frank visitors on Tuesday.

John Delaney, of Blairmore, was
a Frank visitor on Tuesday.

Messrs. W. F. McNeil and Lewis
Stockert were in town this week.

Mr. Goodwin, of the Lethbridge
iron works, was in town on Sat-
urday.

Mrs. Andy Good and Mrs. Scott,
of Crown's Nest, were in town on
Thursday.

The examination of fire-boosters
was held at the Sanatorium on
Wednesday.

EGGS FOR HATCHING—Pur-
chased White Wyandottes, At-
tached to George Pattison, Frank Lums
Kilns.

J. C. Reid, general manager of
Chinook Collections, near Leth-
bridge, was in town the early part
of the week.

Parker is progressing favorably.
He claims that the doctor ordered
him to indulge in nothing but
rubbishy.

Frank will have Hillcrest at
home on Saturday, when a good
game is expected, as both teams
are out to win.

We noticed a grey-eyed Non-
Scottian sailing out of the mouth of
Turtle Mountain on Tuesday.
Early in the afternoon we discovered
it was a Fleming bound down-
townwards Hillcrest, where other
bluenoses greeted him.

The "marrieds" played the
"singles" a game of football last
night, when some fancy football
was witnessed, and although the
"singles" tried hard to get through
they always found "Old Daddy"
there between the sticks.

The Union hotel is now on its
way west and resembles very much
in appearance the sturdy "Rein-
forced" of Canadian coast defence
fame. Jack Boye has not yet
been re-ack, and keeps busy at
the pumps and bailing it out.

We wish to inform the public
that we have a Travellers' Rest in
Frank, under the proprietorship
of Messrs. Parker, Patterson and
Marsh. Anyone in need of a
"square" will please call at their
right-by-eight-free and easy.

A chapter of the Eastern Star
society has been instituted at Hill-
crest. Mrs. D. S. Howe, of Frank,
was elected worthy matron. The
officers were installed on Monday
night by Grand Patron, Walter
Zweiner, of Calgary. Mrs. Zweiner
was also present.

Rev. J. C. Anglin, of Hillcrest,
occupied the pulpit at Knox Meth-
odist church on Sunday night last,
his subject of discourse being
"Almost a Christian," from which
he delivered a very forceful sermon.
The new choir made its first ap-
pearance before the congregation
on this occasion, and the improve-
ment made to the life of the service
was much appreciated. During
the service a solo was rendered by
Mr. Dickson.

The basket social which is to be
held on Monday evening next by
the Frank football club will be a
banquet affair. Mr. Legg, of Hill-
crest, has again offered to favor
the social with several good films
to be put on the screen during the
concert which is also to be a
high character. Mr. Petrie will
also be present with his bagpipes.
Tables will be provided for the use
of those who do not dance and wish
to amuse themselves at cards or
other games. Entertainment will be
ensured a right good time, so come
along and bring your friends.
Tickets 50 cents.

Homer won the toss and elected
to bat first. The game was a
favorable win. The game was
fast for the first twenty minutes,
but neither team could boast of
any excellent form. Evidently
Frank had the stronger battery.
After thirty minutes play, Frank
scored, and was leading at the in-
terval by 1 to 0. In the second
half Frank scored three and Ho-

son scored two. The game was
very close, but Frank's batsmen
were more consistent. Frank's
pitcher was very good, and
Homer's pitcher was not so good.
The game was very interesting,
and the crowd was very large.
Frank's victory was a well-
deserved one, and the crowd
was very satisfied with the result.

STORY OF AN OLD MAN'S DEATH

COLEMAN, Alberta, May 15, 1914.
The death of an old man, who had
lived in this town for many years,
was announced today. He was
born in the year 1825, and was
now 89 years of age. He had been
suffering from a long illness for
some time, and his death was
expected. He was a very kind
man, and was well liked by all
who knew him. He was a member
of the local church, and was a
very active member. He was a
very good man, and was a very
kind man. He was a very good
man, and was a very kind man.

He was a very good man, and was
a very kind man. He was a very
good man, and was a very kind
man. He was a very good man,
and was a very kind man. He was
a very good man, and was a very
kind man. He was a very good
man, and was a very kind man.

He was a very good man, and was
a very kind man. He was a very
good man, and was a very kind
man. He was a very good man,
and was a very kind man. He was
a very good man, and was a very
kind man. He was a very good
man, and was a very kind man.

He was a very good man, and was
a very kind man. He was a very
good man, and was a very kind
man. He was a very good man,
and was a very kind man. He was
a very good man, and was a very
kind man. He was a very good
man, and was a very kind man.

He was a very good man, and was
a very kind man. He was a very
good man, and was a very kind
man. He was a very good man,
and was a very kind man. He was
a very good man, and was a very
kind man. He was a very good
man, and was a very kind man.

He was a very good man, and was
a very kind man. He was a very
good man, and was a very kind
man. He was a very good man,
and was a very kind man. He was
a very good man, and was a very
kind man. He was a very good
man, and was a very kind man.

He was a very good man, and was
a very kind man. He was a very
good man, and was a very kind
man. He was a very good man,
and was a very kind man. He was
a very good man, and was a very
kind man. He was a very good
man, and was a very kind man.

He was a very good man, and was
a very kind man. He was a very
good man, and was a very kind
man. He was a very good man,
and was a very kind man. He was
a very good man, and was a very
kind man. He was a very good
man, and was a very kind man.

He was a very good man, and was
a very kind man. He was a very
good man, and was a very kind
man. He was a very good man,
and was a very kind man. He was
a very good man, and was a very
kind man. He was a very good
man, and was a very kind man.

He was a very good man, and was
a very kind man. He was a very
good man, and was a very kind
man. He was a very good man,
and was a very kind man. He was
a very good man, and was a very
kind man. He was a very good
man, and was a very kind man.

He was a very good man, and was
a very kind man. He was a very
good man, and was a very kind
man. He was a very good man,
and was a very kind man. He was
a very good man, and was a very
kind man. He was a very good
man, and was a very kind man.

Local and General

P. E. Hinde paid a business visit to Fernie this week.

Fritz Fuhr, of the Fairmont Hotel, was in town on Tuesday.

J. M. Fetter paid a business visit to Lethbridge during the week.

Miss E. Welch spent Sunday at her home in Lundbreck.

A young Blairmore couple are also interested in Elk-foot lands.

George Bradley, deputy mayor of Seattle, was in town this week.

Neil McCaig, of Macleod, acted to town the early part of the week.

Mrs. Watson, of Homer, paid a visit to her sister, Mrs. Gibbons, this week.

G. H. Whytehorley is building a retirement house in the Pelletier addition.

Mrs. Kidd's maternity home, Box 95, Phone 151, wedding cake decorated.

Messrs. Maletto and Colobino have purchased the Poggiali stock of groceries, etc., at Coleman.

Colin Macleod, harrieter, came up from Macleod the early part of the week.

Mike Ross has been accused of exceeding the mile-a-minute rate with his "McLaughlin."

Miss Baumer, of Lundbreck, is visiting her sister, Mrs. McNeil at the local telephone exchange.

HOUSE FOR RENT—Apply to G. H. Whytehorley, care F. M. Thompson Co.

WANTED to buy for cash. A good set of second-hand heavy single bar-ras. Apply to "The Enterpriser."

The Australian Amusement Company, who were given a rotten egg send-off from Blairmore, went broke at Macleod.

Mrs. A. S. Baker, of Blairmore, was visiting in High River last week; the guest of Mrs. M. J. King.—High River Times.

The service at the Presbyterian church on Sunday night next will be for men only. [Ladies friends may wait outside!]

Rumor has it that a \$40,000 brick building is to be erected on Victoria Street east, on which work will shortly commence.

M. R. Dawson, who recently left the Metropolis for new fields, is now located at Fort George where he will settle with his family.

C. W. Johnston, of the Lyric theatre at Bellevue, who has just invested in an auto, toured through The Pass on Monday with a party.

Mr. and Mrs. W. M. Nichols, of Melville Lumber Co., Cranbrook, B.C., who have just returned from an extended trip to the United States, arrived in town yesterday.

The F. M. Thompson Co. have just unloaded a car of flour and feed, consisting of "Our Best" Flour, Wheat, Oats, Bran and Shorts. Prices are right.

The Blairmore Home Life Club held an enjoyable party at the home of Mrs. L. G. Giesler Wednesday night. About thirty cozy, he attended and dancings followed in the wee sma' hours o' morning.

A concert and social was given in the Presbyterian mission hall last night, and was well attended. The programme was chosen, but well rendered by members of the Bible Class, and other assistants. Mrs. D. Brown, of Lethbridge, favored the gathering with several interesting readings. Refreshments were served at the close and a collection was taken in aid of church funds.

Commencing last Monday a passenger coach was attached to the P.E.Y. train between Cranbrook and Cranbrook, leaving Cranbrook at 7 o'clock a.m. on Mondays, Wednesdays and Fridays, and returning on the same train on Tuesdays, Thursdays and Saturdays. While this train does not make fast time it will assist somewhat in alleviating the grievances over the discontinuance of the local. Passengers between all small stations along the route will be accommodated by this train.

The marriage of Samuel Charlton, of Hillcrest, to Miss Margaret May Hanson, of Selby Park, Englewood, will take place at the new Anglican church, Hillcrest, on Monday afternoon next. A reception will be held in the Masonic hall at 8 o'clock.

An automobile association was formed on Wednesday, whose main motto will be "Good Roads." The association's district extends from Cranbrook West to Hains and its membership will have about forty influential characters who will agitate for a better road through this district.

Fred Nahlin, who was arrested in Lethbridge on the charge of having tampered with the switch at Bellevue in February last, causing the death of Harry Thompson, a C.F.R. engineer, and who was taken to Bellevue for examination, came up for preliminary hearing at Macleod on Wednesday, and was remanded to next Wednesday, when the summary trial will take place. F. H. Putnam, of Blairmore, appears for the accused.

The general store of R. W. Morneau at Pincher City was destroyed by fire Sunday evening. The cause of the blaze was the overturning of a lamp. Before the flames and conflagration left the station after the arrival of the 9:20 train, the flames were bursting from the windows, and in a short time the building and its contents were destroyed. Many citizens assisted the firemen, but owing to the lack of fire fighting apparatus as well as of water, nothing could be done. The Morgan store for some time has been patronized by the U.F.A. Insurance of \$6,000 was carried on the stock and of \$4,000 on the building.

WIT AND HUMOR

May had a little trunk,
And clothes she had, you bet,
She played a lark, the party invited
"You pack your trunk and get!"

Local Bandmaster

On The Job

Blairmore, May 13th, 1914.

Editor Enterprise—
In the joyful letter addressed to the Editor of the Enterprise by the unassuming band of Bellevue I noticed a difficult section, requiring my language "ought to credit to graduation of Oxford." The entire musical group the capacity of a musician graduated in Harmony and Composition at Naples (Italy) Conservatory of Music, one the best in Europe, but the poor fellow since he does not know what that means, exciting pity! Let us tell him, also, that my sufficient credit make me able enough to understand "vociferous" as the litterate said; but sorry to notice that the miserable ignorant tried to use high words and fall into the usual trap of distinguishing "action" from "insignia" and "old fashion" from "old time"; it's stinking! I maintain that he is an idiot of music, an literary idiot, and here is the fact: he said that "a concertwell music is well known in music circles that it needs no comment" but he does not know, as an absolutely unconscious of music, that the G. Scottwell music is only a music for beginners like him; he forgot to find out the etymology of "fashion" and as an unspeakable fool, he destroyed the proper name; he said "insignia" instead of "action" with a "pittiful" designation "action" I only existing play. I maintain that he is an idiot of musical business because any competent musician before he gets the right of the term people he would find out the reason why the town bandmaster be excluded at the occasion; I maintain that any "disinclination" with an explanation to the idiot that the result of a baton in his hands is perfectly ridiculous (untenable) man he never heard about musical; I maintain that every one in the Blairmore band is an "idiot of profession," and I will award \$100.00 to any one of them able to play, at my private's piece of music.

The bandmaster ask the editor to what I know about music. Oh! Oh! You ignorantly imbecile you, must let me know at once where and when you will attempt a contest of musical evolution and you will find out what I know about music, and who is the man you try to compete with although I know that I grade myself to invite a miserable and elementary snout of music the you, and if you are going to trouble you better get apart of talking about music, you know that you born for the mine and not for profession.

C. DICARTIO

Master of the Blairmore City Band.

Combustion of Coal Under Steam Boilers

Paper read by Wm. J. Cunningham before Frank Lewis of the Northwest Association of Stationary Engineers.

INTRODUCTION

In all manufacturing and industrial plants in which the combustion of coal is the prime factor in the production of power, the question of fuel consumption is, or should be, a vital point to the engineer.

When we consider, then, in the case of producing electrical energy by steam generation, the best economy under the best conditions, only 10.5% of the heat units contained in the coal actually arrive at the wheelshaft in the form of electrical energy, and it can be shown that 90% of the heat units under ordinary conditions are wasted in the furnace; it can readily be understood that the boiler furnace is run place to commence at its limit for economy.

Coal is a hydrocarbon, containing mainly of volatile combustible material, carbon and hydrogen.

Heat is measured according to a recognized standard based upon the expansion of mercury, or by means of instruments which are themselves calibrated by the mechanical thermometer. Heat may be termed thermometric heat or temperature.

HEAT UNITS

In expressing the amount of heat required to perform certain work, it is customary to refer to the number of degrees on the thermometer, but this is in terms of a definite mass or volume of a definite specific heat. The British standard of heat is termed a British Thermal Unit (B.T.U.) and is the amount of heat required to raise one pound of water one degree Fahrenheit.

Adopting this standard or expression, the heat yielded by the combustion of one pound of carbon (C) to carbon dioxide (CO₂) is complete combustion is 14,000 B.T.U., whereas the heat yielded by the combustion of carbon to carbon monoxide (CO) is incomplete combustion is only 4,000 B.T.U.

The heat yielded by the combustion of hydrogen (H₂) to water (H₂O) is 119,000 B.T.U.

Air is required to support the combustion of hydrocarbon, and the oxygen which it contains, and may be taken as consisting of 21 parts of oxygen and 79 parts of nitrogen. When carbon is burned to CO₂ it forms the same volume in the waste gas as the oxygen in the air. Thus CO₂ 2 vols.—O₂ 2 vols.

The evaporative power or value of the fuel is the amount of water which the fuel will evaporate at normal boiling point.

Various theories have been propounded as to what takes place when coal is burned in the furnace of a boiler; but the one most generally accepted is this: When the fresh coal is placed upon the fire the volatile gases are at once driven off, absorbing heat in the process of distillation, and becoming what are known as "green" gases, made up of a mixture of carbon monoxide, hydrogen, and other gases, which are then absorbed, and thus a yield of useful heat. It is they which are supplied with the necessary heat for their complete combustion. The carbon in the coal is then converted may be first to CO and then (with further air) to CO₂ or it may be to CO₂ directly.

Now it must be borne in mind that CO₂ which represents the greatest yield of heat possible from the combustion of carbon will if exposed to carbon in a heated state, take up another atom of carbon and become converted back into CO.

Advertising

ADVERTISING means directing the attention of others to that for which attention is desired. If you have a stock which you are proud of, or a service which you believe to be superior, direct attention to the fact every week in the columns of this paper. Send out the hand of good-will, wear the smile of welcome, and command the business of the buyers of this community. Your things and your business will expand and the profits from your business will be greatly increased.

A WORD TO THE PUBLIC

Do you not feel a certain reluctance about going into shops that have not invited you to enter their doors? At the shop which advertises—think in your customer—you know that they are welcome.

Shop Where You are Invited To Shop

Now as we intended, except to get ideal conditions in a boiler furnace a 10% loss must be looked upon as a loss which cannot be prevented.

A roughing example we have would otherwise in stilling conditions, and taking good comparative conditions, and if the gases are 400 degrees Fahrenheit at the furnace exit, the loss would be 40% more, or with 5% CO₂ 48% of the heat in the coal is passing up the chimney.

You may perhaps wish at the idea of 48% of your coal being wasted up the chimney, and as they have a CO₂ meter will find that the percentage of CO₂ will be nearer 48% than 15%, and the temperature will be nearer 400 degrees than 300 degrees Fahrenheit.

The bearing that these facts and figures have upon economy in burning fuel is this:

(1) Unless you get a high percentage of CO₂, you are wasting heat and wasting fuel.

(2) The admission of too much, or too little air will both reduce your percentage of CO₂, cause soot, and make more fuel necessary to keep up steam.

A knowledge of the amount of air (or the draught) is not in itself a guide to economy, because the question of balance of fuel is another important factor. The draught, the fuel-burner, the greater the amount of air required to support combustion, and vice versa.

A knowledge of the temperature of the chimney gases is not in itself a guide to economy, because the temperature may be low, not because the heat has been seriously absorbed by the setting and flues, but because a great excess of air has been wrongly admitted, either in the making or through leaks in the setting and flues, wasting the heat and thus reducing the CO₂.

It comes to this, therefore, that the percentage of CO₂ is the one factor to post to economy, but also the one means of ascertaining the actual monetary loss, and the one means of ascertaining the loss may be adopted to secure fuel and economy. Reconomy or no economy, CO₂ or no CO₂, you must carry your load, the conditions, whatever they may be, will carry your load and produce the most CO₂ without CO are conditions you must carry.

No fixed set of rules can be drawn to cover these matters. Whether your fuel-burner be thick or thin, whether you should use all your available draught, or only a part of it, will depend entirely on your own conditions and the coal you are burning. I would like to point out, however, that in also case of the ordinary draught man will be using too much draught, and probably if he could get it would use still more.

Combustion of Natural Gas

The combustion of Natural Gas is a difficult problem to solve, more so than those of familiar with the use of coal. Many difficulties will arise. In attempting to use this fuel, which do not appear to those who have not had experience.

To be able to use this fuel successfully is a most complicated and financial statement, a few fundamental principles must be observed.

(1) The proper quantities of gas and oxygen must be brought in contact with each other.

(2) After being brought in contact the gas must be thoroughly mixed before reaching the point of ignition.

(3) Combustion must take place before they have an opportunity to escape, which they will do in a comparatively short space of time.

A gas burner, to be successful, should be both economical and efficient. To be economical, it must have perfect contact of both the air and gas supply which should be regulated to suit the existing conditions. To be efficient, it must be equal to any emergency, such as over-load, low gas pressure, sudden change of service, and be able to do work in a satisfactory manner, under any and all conditions.

The only object of a gas burner is to supply and thoroughly mix the proper amount of air and gas before reaching the point of ignition.

Air and gas may be compared to oil and water, as they will not mix properly unless they are put in violent agitation; and unless combustion takes place promptly, after they have been agitated, they will separate the same as before.

It is possible to have the proper amount of carbon, also oxygen, but if they are not thoroughly mixed the combustion will be imperfect and the result less efficiency.

There are gas burners on the market which will make perfect combustion, but their efficiency will be obtained from the gases after combustion has been made, and the local conditions in the furnace, and the kind of work to be performed, the available draught and the temperature to be attained. Experience only will show the

Bellevue Happenings

J. Lane was in from the North Pacific Saturday.

A. J. Carter was in the camp this morning. He is now in the camp.

Tom Longworth moved his family to Frank last week.

Harry Davidson drove in from the South Fork on Saturday.

William Goodwin pulled out on prospecting trip this week.

Mrs. and Mrs. George Blumensaat were in from the North Fork on Saturday.

Bill Clark is tired of mining and has pulled out in search of a home.

The Bellevue band played at the Home-Prank game at Frank on Saturday.

J. B. Radd and Gus Radd went out to the Radd ranch near Myrie, on Sunday.

Charles Davidson has returned to the camp after a month's absence in Montana.

Mrs. and Mrs. Wilfrid Wolford, of Blairmore, were in from the North Fork on Monday.

Joe Carter left on Thursday, for his former home in Italy, where he will spend three months.

Robert Connolly has returned after several weeks' absence at Fletcher Creek and Spring Creek.

George Knowles has shipped in three pigs from Cusley, which will be added to his "piggy" here.

Mrs. George Knowles was a visitor at Billingham last week, the guest of Mrs. Anthony Wadsworth.

A. Cole and E. Drake returned from the North Fork last week. They have been building a house on W. Cole's ranch.

Fortunately, a settlement was reached this week in the mine dispute, and the men started to work Tuesday morning after three weeks' rest.

Just as work was resumed at the mine on Tuesday morning, an accident happened. The fan and the miners had stopped up of a shaft in the mine.

C. W. Johnston, of the L'Esperance has purchased an auto car, which will be used as a delivery, making regular trips between Bellevue, Hillcrest and Frank.

We regret that Mr. Meade, of the bank, is shortly to be transferred to Foremost, Alberta. Mr. Meade will be missed by the many friends he has made here.

A fire broke out about 2 p.m. on Wednesday in the brooder house, by Andrew Goodwin, which cost the lives of twenty little chicks one week old. The fire was discovered in the early stage, but not before the chicks were suffocated.

Blairmore School Report for April

The following is the report of the Blairmore school for the month of April:

The enrollment for month was 219, attendance 3880.5, average at attendance 21.

Grade I Junior, Miss I. Murdoch, teacher—Number enrolled 42, aggregate days' attendance 500.5, average attendance 35.0, percentage of attendance 53.4, late 19. Perfect in attendance and punctuality—Jillie Houghton, Rachel Mallon, John Roberts, Margaret Stewart, Cecil Handley, Francis Andel, Henry Stein, Arthur Vasseur.

Grade I Intermediate, Miss M. E. Mole, teacher—Number enrolled 83, aggregate days' attendance 708, average attendance 35.4, percentage of attendance 39.16, late 6. Those other late or absent—Charlie Gray, John Gray, Florence Houghton, Tom Kemp, Ray Kim, Frank McLeod, Camille Maughy, Roland Pinkney, John Steiner, Hazel Sawyer, Beatrice Turner, Albert Thibault, Marion Taylor.

No set of rules or conditions can be laid down as to the formation or style of the building walls or arches in the boiler furnace. These will depend entirely upon the local conditions in the furnace, and the kind of work to be performed, the available draught and the temperature to be attained. Experience only will show the

engineer how to attain the best results. However, I would point out that with burning coal, the only satisfactory method of testing the combustion of the fuel is to analyze the flue gases and the percentage of CO₂, CO, and O₂ contained in the flue gases will determine if perfect combustion is being attained.

Turner, Teddy Hinkley, Ross Haker, Eliza Cross, Annie Andel, Fernand Caprice.

Grade I Senior and Grade II, Miss C. L. Williams teacher—Number enrolled 44, aggregate days' attendance 515.5, average attendance 41.75, percentage of attendance 52.44, late 18. Pupils either late or absent—Duncan Bell, Amy Brown, Liza Burnett, Oliver Bourgeois, Chas. Bessie, Ania Haker, Vernon Harker, Marie Haker, James Jones, George Kalfoury, Catherine Lyon, Elizabeth McLeod, Angeline Morine, Annie Malin, Mildred Passmore, Louis Ross, Henrietta Robins, Janette Thibault, Allen Turner, Annie Vercanon, Flora Warner, Violet Warner, Doris McDougall.

Grade III, and Junior IV, Miss L. M. Perkins teacher—Number enrolled 40, aggregate days' attendance 728, average attendance 36.6, percentage of attendance 47.75, percentage of attendance 52.44, late 18. Pupils either late or absent—Edward Thibault, Lillian Evans, Ross Dault, Russell Vireux, Julius Haker, Bert Sykes, Robby Sparks, Olga Miskin, George Handley, Archie McLeod, Lydia Williams, Harold Stenace, Alice Carter, Walter Bessie.

Grade IV, and V, Miss K. B. Darnach, teacher—Number enrolled 34, aggregate days' attendance 622, average attendance 38.8, percentage of attendance 46.68, late 4.

Grade VI and VII, Miss E. M. Fulton teacher—Number enrolled 43, aggregate days' attendance 572.5, average attendance 33.28, percentage of attendance 47.1, late 1.

Grades VIII, IX, X, and XI—Number enrolled 20, total attendance 304, average attendance 15.2, percentage of attendance 38.5, late 4.

For the first time all the rooms in our house have earned the full holiday allowed by the board for regularity and punctuality. This is very satisfactory, and I hope that all the rooms will be fortunate enough to earn it this month.

J. W. VERGE, Principal.

Ottawa, May 11.—Hon. Dr. Roche, Minister of Education, agreed this morning to abolish the interest on homeless free emigrant railway.

This action was taken as the direct result of the strong case put up by W. A. Buchanan, M.P. for Medicine Hat constituency, during the debate on the amendments to the Debitum Lands Act.

The action of the Minister will prove a great boon to thousands of homesteaders in the west, where the issue is a live one, and will also be an impetus to greater immigration.
